

URINALYSIS ORDERING GUIDE

UA Testing Parameters and Reflex Criteria:

Urinalysis chemstrip:

- Specific gravity
- Leukocyte Esterase
- Nitrite
- pH
- Protein
- Glucose
- Ketones
- Urobilinogen
- Occult blood

Chemstrip Reflex to Microscopic Criteria:

- Leukocyte esterase: $\geq 1+$
- Nitrite Positive
- Protein: ≥ 30 mg/dL
- Blood: any positive result

Microscopic Reflex to Culture Criteria:

- WBC: ≥ 10 -50/high power field

Test Code/EPIC Code	Test Name	Above Testing Included?	Above Testing Included?	Above Testing Included?
<u>UAPR: LAB10348</u> *Recommended UA order*	Urinalysis with Reflex to microscopic exam and reflex to culture		 If reflexed based on above criteria	 If reflexed based on above criteria
<u>URSCR: LAB347</u>	Urinalysis with reflex to microscopic exam		 If reflexed based on above criteria	
<u>URSED: LAB348</u>	Urinalysis with microscopic exam ALWAYS		 ALWAYS included	
<u>UDIPS: LAB11374</u>	Urinalysis chemstrip ONLY			

NOTE: If clinically indicated/necessary, it is appropriate to order stand-alone Urine Culture (URCUL: LAB239) with a URSR, URSED, OR UDIPS as they will not reflex this test.
